Volvo Car Group - Invitation To Volvo Cars Tech Moment

Volvo Car Group is hosting a Tech Moment at 14:00 CEST on 30 June 2021 – and we want you to be a part of it.

As we transition to becoming a fully electric premium car company by 2030, we are committed to creating the best cars in our 94-year history. This is an exciting time in our development and during our Tech Moment, we’re planning to share details on our future technology roadmap.

During the day you will hear from our senior leadership, including chief executive Håkan Samuelsson, and get a first glimpse of the technologies that underpin our future. We will also offer an array of interactive sessions that cover areas such as our path to full electrification, core computing, the next level of safety and the introduction of safe autonomous driving.

The event can be followed online via this link.

We hope you will join us on 30 June!

Welcome!
Volvo Car Group

Keywords:
Technology, Press Releases, Connectivity, Electrification

Descriptions and facts in this press material relate to Volvo Cars' international car range. Described features might be optional. Vehicle specifications may vary from one country to another and may be altered without prior notification.
